In order for His Holy Church to maintain the integrity of its position as a servant of Christ's ministries it must remain knowledgeable of the activities, character and status of those Churches and congregations. One essential purpose of the Church is to maintain the network between Churches, orders and congregations of the People.

Instructions Notification of Ministry Information

Each congregation composed of two or more electors or elders must choose in consensus a representative minister of the Church.

To assist the Church we request a:

1. **Delivery of Changes in contact information** with Form 2Pt1-10g
1. **At least one annual report** from each Church along with updates and changes to the electorate of the congregation are requested from the minister.
 - a. **This report may be as specific or general** as the minister deems fit.
 - b. **The purpose of an annual report** is simply to remain in active communication for the daily assistance and protection of the minister and his assigned congregation.

Additional services and assistance will be offered to the assigned ministers and a recognized congregation upon request. This certificates of Holy Matrimony, birth, Baptism and other forms of identification will also be made available upon request. Minister and individual identification is available for active Churches and congregations.

When property or funds are to be held by a Church or its entrusted ministers these documents are essential for the protection of the sacred purpose trust offered by congregations.

Since ministers of ministers also gather in congregation there may be many levels to this network. Information is usually kept locally within a given congregation and its minister and his minister. This is true no matter where in this network a congregation is formed. There should be no centralization of material information concerning any individual with in the network.

Terms:

"Elder" The head or representative of a household or individuals in congregation.
